Levallois, November 5, 2009: The **Keyrus** Group records a consolidated turnover of €24.3 M in the 3rd quarter of 2009, which represents a stable figure compared to that of Q3 of 2008.

Following a difficult second quarter, the Large Corporate operations are experiencing an organic growth of +0.5% once again, with a notably positive development of operations in France and Brazil which matches our expectations.

Mid-Market operations post a slight drop (-1.5%) as against Q3 of 2008, again as expected, which, however, was lesser than that observed for Q2 of 2009 (-5%).

The levels of operations at the end of the fiscal year were satisfactory for the Large Corporate market as well as that of the Mid-Market. This should allow pursuing a recovery of the results.

In this context, and as announced during the publication of the half-yearly results of 2009, the **Keyrus** Group increases its internal growth initiatives, with a focus on online consulting, prior to its Web integration operations, and on management consultancy, prior to its Business Intelligence operations.

On February 10, 2010, **Keyrus** will publish its turnover figures for Q4 of 2008 after market closure.
